

# Giving Resources New Life<sup>®</sup>

Led by our recycling facilities, annually we recover over **725,000** tons of materials such as cardboard, paper, plastic, glass and metal

## 1 Recycling Collection

It starts with you tossing items like newspapers, boxes, bottles, and cans into your recycling bin. We pick these materials up from your home and take them to be processed at a materials recycling facility (MRF).

## 2 Recycling Facility

At the recycling facility we sort and bale commodities like aluminum, cardboard, paper and more. These serve as the source material for recycled products and packaging.

## 3 Manufacturing

Baled commodities are received by manufacturers as raw materials for making new goods.

## 4 New Products

Completing the loop, the recyclables you placed into your bin are transformed into new products like boxes, bottles, cans, packaging and even fleece jackets!

**Cardboard**  
becomes

**New Cardboard Boxes**

**Paper**  
becomes

**Pizza boxes**

**Plastic**  
becomes

**New Plastic Packaging**

**Glass**  
becomes

**Road base**

**Metal**  
becomes

**New Cans**
